Reed R4000sd-Kit2 Data Logging Vane Thermo-Anemometer With Tripod, Sd Card And Power Adapter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4000sd-Kit2 Data Logging Vane Thermo-Anemometer With Tripod, Sd Card And Power Adapter

Manufacturer: Reed Instruments

Model: MEA-REE-01690

Availability: In Stock

Description

The REED R4000SD-Kit2 adds a tripod to the standard data-logging vane anemometer kit, making it easy to set up for unattended, long-term air velocity and temperature monitoring. It still includes the 16GB SD card and AC power adapter for continuous powered logging and easy data export to Excel. Suited to HVAC/R diagnostics, filter blockage checks, and condenser or chiller monitoring where hands-free placement is needed.
