Reed R4500sd-Kit Data Logging Hot Wire Thermo-Anemometer With Power Adapter And Sd Card

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4500sd-Kit Data Logging Hot Wire Thermo-Anemometer With Power Adapter And Sd Card

Manufacturer: Reed Instruments

Model: MEA-REE-01691

Availability: In Stock

Description

The REED R4500SD-Kit pairs a hot-wire thermo-anemometer with a 16GB SD card and AC power adapter for precise low-velocity airflow and temperature data logging. Its hot-wire probe and thermistor sensor give fast, accurate readings, with a Type J/K thermocouple input for contact temperature, and logged data can be exported directly to Excel. Geared toward HVAC/R servicing, filter blockage detection, and condenser or chiller monitoring.
