Reed R4500sd-Kit2 Data Logging Hot Wire Thermo-Anemometer With Tripod, Sd Card And Power Adapter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4500sd-Kit2 Data Logging Hot Wire Thermo-Anemometer With Tripod, Sd Card And Power Adapter

Manufacturer: Reed Instruments

Model: MEA-REE-01692

Availability: In Stock

Description

The REED R4500SD-Kit2 extends the hot-wire thermo-anemometer kit with an expandable tripod, allowing it to be positioned for unattended low-velocity airflow monitoring over extended periods. It retains the 16GB SD card, AC power adapter, and Type J/K thermocouple input for continuous data logging exportable to Excel. Well suited for HVAC/R servicing and ongoing condenser or chiller performance checks.
