Reed R6050sd-Kit Data Logging Thermo-Hygrometer With Power Adapter And Sd Card

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6050sd-Kit Data Logging Thermo-Hygrometer With Power Adapter And Sd Card

Manufacturer: Reed Instruments

Model: MEA-REE-01697

Availability: In Stock

Description

A real-time data-logging thermo-hygrometer that records ambient temperature, relative humidity, dew point and wet-bulb readings straight to an included SD card, with a Type J/K thermocouple input for contact temperature. This kit adds a 16GB micro SD card and an AC power adapter, so logged data can be pulled off and reviewed as a spreadsheet. Built for laboratories, museums and other settings where environmental conditions must be tracked continuously.
