Reed R8085-Kit Personal Noise Dosimeter, Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8085-Kit Personal Noise Dosimeter, Kit

Manufacturer: Reed Instruments

Model: MEA-REE-01706

Availability: In Stock

Description

The REED R8085-KIT is a personal noise dosimeter set designed to track an individual worker's sound exposure and dose percentage over an 8-hour shift, supporting OSHA and CCOHS compliance work. The kit bundles two R8085 dosimeters, PC software, a USB cable, an R8090 sound level calibrator, and a custom-foam hard carrying case. It measures from 35 to 130 dB with ± 1.0 dB accuracy and real-time-clock data logging.
