Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4500sd-Probe Replacement Probe For R4500sd & Sd-4214

Manufacturer: Reed Instruments

Model: MEA-REE-01724

Availability: In Stock

Description

A telescoping replacement hot-wire probe built for REED's R4500SD and SD-4214 data logging thermo-anemometers. It extends to a 280mm minimum length with a 12mm diameter shaft, letting you reach into ducts and tight spaces to capture accurate air velocity and temperature readings. A simple, direct-fit way to restore or upgrade your existing meter without buying a whole new unit.
