Reed R7000sd Data Logging Vibration Meter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7000sd Data Logging Vibration Meter

Manufacturer: Reed Instruments

Model: MEA-REE-01726

Availability: In Stock

Description

A handheld vibration meter that tracks both velocity and acceleration on rotating machinery, built to ISO 2954 standards. It logs up to 99 readings automatically at adjustable intervals and stores them on an SD card that exports straight to Excel, no extra software needed. RMS, peak-hold, and max/min functions make it a solid choice for routine equipment condition monitoring.
