Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2450sd Data Logging Thermometer, 4-Ch Thermocouple, 2-Ch Rtd

Manufacturer: Reed Instruments

Model: MEA-REE-01741

Availability: In Stock

Description

A multi-channel data logging thermometer that can display up to 4 readings at once and works with Type K, J, R, S, E, T thermocouples as well as RTD probes across a wide range down to about -200C and up beyond 1300C depending on probe type. It logs directly to a removable SD card (up to 16GB) at user-set intervals from 1 second to an hour, and includes max/min, differential, and data-hold functions on its backlit display.
