Reed R3000sd-Kit2 Data Logging Ph/Orp Meter With Ph/Orp Electrodes And Buffer Solution

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3000sd-Kit2 Data Logging Ph/Orp Meter With Ph/Orp Electrodes And Buffer Solution

Manufacturer: Reed Instruments

Model: MEA-REE-01757

Availability: In Stock

Description

Building on the base kit, this configuration adds the R3000SD meter with its pH and ORP electrodes plus a pair of calibration buffer solutions (pH 4.01 and pH 7.00) so the probe can be verified and calibrated on site. Like the rest of the R3000SD line it records pH and ORP values to a removable SD card with selectable sampling rates and automatic temperature compensation. Everything ships in a soft carrying case with batteries, backed by a one-year warranty.
