Reed R1425 Electrode Cleaning Solution, 16.9 Fl Oz. (500ml)

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Manufacturer: REED INSTRUMENTS
Model: MEA-REE-01771
Availability: In Stock

Description

The REED R1425 Electrode Cleaning Solution is formulated to strip inorganic buildup, residues, and contaminants off pH/ORP electrode surfaces after use or improper storage. Supplied in a 500ml bottle with a childproof cap, it helps restore a sluggish or drifting electrode's response before recalibration. Regular use extends electrode life and keeps calibration readings reliable.
