Reed R3000sd-Orp Orp Electrode For R3000sd & Sd-230

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3000sd-Orp Orp Electrode For R3000sd & Sd-230

Manufacturer: Reed Instruments

Model: MEA-REE-01773

Availability: In Stock

Description

The REED R3000SD-ORP is a professional replacement ORP (oxidation-reduction potential) electrode built for the REED R3000SD and SD-230 data logging meters. It uses a double-junction Ag/AgCl sensor housed in an epoxy body, measuring 0 to 1999mV with a 36-inch cable terminating in a BNC connector for quick meter attachment. It's rated for use up to 130F (55C), making it suitable for routine water-quality ORP testing.
