Reed R1630 Light Meter, Bluetooth Smart Series

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R1630 Light Meter, Bluetooth Smart Series

Manufacturer: Reed Instruments

Model: MEA-REE-01793

Availability: In Stock

Description

A pocket-sized light meter covering 0 to 100,000 lux with roughly 3.5% accuracy at typical indoor/outdoor levels, built around REED's Smart Series ecosystem. Bluetooth 5.0 lets it pair with the free Smart Series app (phone or tablet) for real-time logging at selectable 1-120 second intervals, and up to six of these meters can be monitored simultaneously from one device. It also works as a standalone handheld thanks to its own backlit display, and a magnetic back lets it be mounted directly to metal fixtures for hands-free readings.
