Reed R8100sd Data Logging Light Meter, 100,000 Lux

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8100sd Data Logging Light Meter, 100,000 Lux

Manufacturer: Reed Instruments

Model: MEA-REE-01794

Availability: In Stock

Description

A dedicated data-logging light meter reading from roughly 2,000 up to 100,000 lux (200-10,000 foot-candles) through a detachable, protective-covered sensor, with an optional thermocouple probe available for simultaneous contact-temperature logging. Readings can be recorded straight to an SD card (up to 16GB) at intervals from 1 second to an hour, and the meter can export the log as an Excel file without extra software. It runs on 6 AA batteries or an AC adapter for continuous long-term monitoring, and mounts on a tripod for unattended use.
