Reed R8100sd-Probe Replacement Probe For R8100sd & Sd-1128

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8100sd-Probe Replacement Probe For R8100sd & Sd-1128

Manufacturer: Reed Instruments

Model: MEA-REE-01795

Availability: In Stock

Description

A genuine replacement light sensor with its own protective cover, built as the detachable probe for REED's R8100SD and SD-1128 data-logging light meters. It uses the same photodiode and colour-correction filtering tuned to CIE spectral response as the original sensor, so swapping it in restores factory-accurate lux readings when the original probe is damaged or worn out.
