Reed R8130 Light Meter 400,000 Lux

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8130 Light Meter 400,000 Lux

Manufacturer: Reed Instruments

Model: MEA-REE-01796

Availability: In Stock

Description

A higher-range compact light meter measuring up to 40,000 foot-candles (400,000 lux) via a tethered sensor, aimed at brighter environments than REED's standard-range meters handle. Its LCD combines a numeric readout with a 42-segment analog bargraph for quick trend viewing, alongside data hold, min/max, peak-capture and relative (delta) measurement modes. It ships with a protective sensor cover, holster, and carrying case, runs on a single 9V battery, and can stand on its own kickstand or a tripod.
