Reed R9510 Digital Refractometer, 0-55% Brix

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9510 Digital Refractometer, 0-55% Brix

Manufacturer: Reed Instruments

Model: MEA-REE-01809

Availability: In Stock

Description

A handheld digital refractometer that reads sugar concentration on a 0-55% Brix scale in about three seconds, useful for checking juices, syrups, sauces and similar liquid samples. Its dual display shows Brix and sample temperature together, with automatic temperature compensation and a one-touch zero calibration to keep readings consistent between samples. The sapphire measuring prism resists scratching and corrosion, and the IP54-rated housing plus rechargeable battery make it practical for field or production-line use.
