Reed R8005 Laser Distance Measurer 164ft, 50m

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8005 Laser Distance Measurer 164ft, 50m

Manufacturer: Reed Instruments

Model: MEA-REE-01810

Availability: In Stock

Description

A one-handed laser distance meter measuring up to 164 ft (50 m), with a backlit multi-line LCD that can show several readings at once for area, volume, and length-addition calculations. It supports indirect (Pythagorean) measurement for hard-to-reach points, switchable front/rear reference points, and a built-in bubble level for keeping shots level, and it stores up to 99 readings along with min/max capture. A laser target pointer, selectable imperial/metric units, and auto shut-off round out the feature set for building layout and site-measurement tasks.
