

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

LMX200 Enhanced GPR Kit

Manufacturer: ERP Manufacturer #34

Model: SUR-SEN-01949

Availability: In Stock

Description

The LMX200™ provides unprecedented insights and target confidence to detect traditionally non-locatable subsurface features such as: Metal utilities, including pipes and cables Non-metallic pipes, including PVC and asbestos cement Concrete storm and sewer systems Utilities where installed tracer wiring has failed Underground storage tanks and drainage tiles Septic system components Non-utility structures such as vaults, foundation walls and concrete pads Public utility systems and local governments require that the positions of underground systems are located and marked. This helps in planning projects and avoiding risks and hazards. The LMX200™ builds on the capabilities of the ...
