Reed FS-200-NIST IR Food Service Thermometer, 8:1, -58/392°F, -50/200°C W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed FS-200-NIST IR Food Service Thermometer, 8:1, -58/392°F, -50/200°C W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02853

Availability: In Stock

Description

A compact infrared thermometer built for kitchen and food-safety spot checks, reading surface temperature from -58F to 392F at an 8:1 distance-to-spot ratio. It has a built-in laser sight, backlit display, and adjustable high/low alarms that flash and beep when a reading strays outside a safe range. This NIST unit ships with a certificate of calibration traceable to NIST, useful for HACCP audits and documented quality programs.
