Reed R2400-NIST Thermometer, Type K Thermocouple, -58/2000°F, -50/1300°C W/nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2400-NIST Thermometer, Type K Thermocouple, -58/2000°F, -50/1300°C W/nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02874

Availability: In Stock

Description

The REED R2400-NIST is a single-input Type-K thermocouple thermometer with a large backlit LCD, measuring -58 to 2000F (-50 to 1300C) with selectable C/F/Kelvin display and 0.1/1 degree resolution. It includes a protective holster, beaded wire probe, carrying case, and a NIST-traceable calibration certificate with full data and uncertainty values, making it suited for industrial, food-service, and lab use.
