Reed R2920-nist Probe, Type K, Surface, -58/932°F, -50/500°C, Yellow W/nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2920-nist Probe, Type K, Surface, -58/932°F, -50/500°C, Yellow W/nist Cert

Manufacturer: REED INSTRUMENTS

Model: MEA-REE-02876

Availability: In Stock

Description

The R2920 is a Type K surface probe with an exposed ribbon contact tip built for fast, direct-contact readings on flat or gently curved surfaces, covering -58 to 932F (-50 to 500C). It has a roughly 6.3-inch probe with a 5-inch handle and a 39-inch coiled lead terminating in the standard yellow K-type connector for plug-and-play use with REED and other K-type meters. The -NIST version ships with a NIST-traceable calibration certificate for quality-controlled or auditable measurement work.
