Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2000-NIST Thermometer, Digital Stem, Waterproof, -40/450°F, -40/230°C W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02884

Availability: In Stock

Description

A waterproof, stainless-steel pocket stem thermometer with a simple round LCD head that refreshes its reading every two seconds and includes a manual calibration screw for field adjustment. It covers -40 to 450F (-40 to 230C), is NSF certified, switches between C and F, and comes with a protective probe sheath and button-cell battery. The -NIST version is the same instrument paired with a NIST-traceable calibration certificate.
