Reed R2222-NIST Thermometer, Digital Stem, -40/450°F, -40/230°C W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2222-NIST Thermometer, Digital Stem, -40/450°F, -40/230°C W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02885

Availability: In Stock

Description

A stainless-steel digital stem thermometer with a backlit display, Max/Min recording, and a data-hold button for capturing a reading in awkward spots. It spans -40 to 482F (-40 to 250C) with a roughly 2-second response, auto shuts off after 20 minutes to save the battery, and ships with a protective probe cover. The -NIST edition is the identical thermometer bundled with a NIST-traceable calibration certificate.
