Reed R6001-NIST Thermo-Hygrometer, 0/100%Rh, -4/140°F, -20/60°C W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6001-NIST Thermo-Hygrometer, 0/100%Rh, -4/140°F, -20/60°C W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02891

Availability: In Stock

Description

The REED R6001 is a handheld dual-display thermo-hygrometer that tracks temperature and %RH simultaneously with a fast 2.5-reading-per-second sampling rate, backed by Max/Min/Avg and data-hold functions. It spans -20 to 60C (-4 to 140F) and 0-100% RH, runs on a single 9V battery, and comes with its own carrying case; optional 33%/75% RH calibration standards are available separately. This listing adds a NIST-traceable calibration certificate to the base unit.
