Reed R6020-NIST Temperature & Humidity Usb Data Logger, -40/158°F, -40/70°C, 0-100%Rh W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6020-NIST Temperature & Humidity Usb Data Logger, -40/158°F, -40/70°C, 0-100%Rh W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02892

Availability: In Stock

Description

Compact USB-stick style logger that plugs directly into a computer for setup, then disconnects to record temperature and humidity readings independently at a user-selectable interval from 2 seconds up to 24 hours. It stores as many as 32,000 samples, has a bright LED that flags out-of-range alarm conditions, and ships with a wall-mount bracket for unattended long-term monitoring. This NIST variant is the same R6020 hardware supplied with a NIST-traceable calibration certificate for audit and compliance records.
