Reed R6030-NIST Temperature & Humidity Datalogger, Lcd, -40/158°F, -40/70°C, 0-100%Rh W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6030-NIST Temperature & Humidity Datalogger, Lcd, -40/158°F, -40/70°C, 0-100%Rh W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02893

Availability: In Stock

Description

Handheld logger with a real-time clock and an LCD screen that shows live temperature and humidity readings on the spot rather than requiring a computer. It logs up to 32,000 data points over a -40 to 158F (-40 to 70C) range and 0-100% RH, flags min/max alarm breaches with an LED, and comes with a wall-mount bracket and lock for fixed installations. This listing is the NIST-certified version of the same instrument, adding a traceable calibration certificate.
