Reed R6250SD-NIST Data Logging Heat Stress Meter, Wbgt W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6250SD-NIST Data Logging Heat Stress Meter, Wbgt W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02898

Availability: In Stock

Description

The REED R6250SD is a data-logging version of REED's WBGT heat-stress meter, recording air, black-globe, and wet-bulb temperature plus humidity directly to an SD card (up to 16GB) at user-selectable sampling intervals. A dual backlit LCD, real-time clock, and hold/min-max functions make it suited to logging heat-stress exposure over a full shift for OSHA-style compliance records. This listing includes an add-on NIST-traceable calibration certificate for documented accuracy.
