Reed R9600-NIST Refractometer, Salinity, 0-28% W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9600-NIST Refractometer, Salinity, 0-28% W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02900

Availability: In Stock

Description

The REED R9600 is a handheld optical refractometer built for measuring dissolved salt content in water on a 0-28% salinity scale, with automatic temperature compensation for reliable field readings. It suits aquarium, pond, and food-brining applications where quick salt-concentration checks are needed, and includes a carrying case and calibration tool. This listing includes an add-on NIST-traceable calibration certificate for documented accuracy.
