Reed R9700-NIST Battery/Antifreeze Tester, -50/32°F, -45/0°C W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9700-NIST Battery/Antifreeze Tester, -50/32°F, -45/0°C W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02901

Availability: In Stock

Description

The REED R9700 is a handheld optical refractometer that checks automotive coolant freeze protection (both ethylene and propylene glycol) and battery acid specific gravity from a couple of drops of sample. Automatic temperature compensation keeps readings accurate across ambient conditions, making it a quick go/no-go check for garages and service shops. This listing includes an add-on NIST-traceable calibration certificate for documented accuracy.
