Reed R8085-MIC Replacement Microphone & Clip For R8085

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8085-MIC Replacement Microphone & Clip For R8085

Manufacturer: Reed Instruments

Model: MEA-REE-02915

Availability: In Stock

Description

This is the factory replacement microphone-and-clip assembly for the REED R8085 noise dosimeter, built around the same 0.5 in (12.7mm) electret condenser capsule used in the original unit. It swaps in when a dosimeter's mic wears out or is damaged, restoring accurate sound pickup without replacing the whole instrument, and mounts back onto the wearer's collar with the same integrated clip.
