Reed R8130-NIST Light Meter 400,000 Lux W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8130-NIST Light Meter 400,000 Lux W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02921

Availability: In Stock

Description

The REED R8130 is a wide-range light meter with a tethered sensor probe, reading up to 400,000 lux (40,000 fc) for demanding photographic, film and industrial lighting checks. Its LCD includes a 42-segment analog bargraph alongside data hold, min/max, peak and relative (delta) readings, with accuracy rated around $\pm 5\%$ of reading plus 0.5% full scale. It runs on a single 9V battery with a 30-minute auto shut-off, and ships with a protective holster and soft carrying case. This item ships with an add-on NIST-traceable calibration certificate.
