Reed LM-8000-NIST Multifunction Meter, 6-In-1 W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed LM-8000-NIST Multifunction Meter, 6-In-1 W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02923

Availability: In Stock

Description

The REED LM-8000 is a compact 6-in-1 environmental meter combining air velocity, air temperature, ambient temperature, relative humidity, light level and contact temperature into one handheld unit built for one-handed use. Air velocity covers roughly 0.2 to 30 m/s and temperature spans a very wide -100C to 1300C range, with data hold and min/max recall for field checks. At about 160 g it is light enough for HVAC, electrical and general maintenance rounds. This item ships with an add-on NIST-traceable calibration certificate.
