Reed R4700SD-NIST Data Logging Environmental Meter W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4700SD-NIST Data Logging Environmental Meter W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02924

Availability: In Stock

Description

The REED R4700SD is an SD-card data-logging version of REED's 6-in-1 environmental meter, covering air velocity, air/ambient temperature, humidity, light and contact temperature with a backlit LCD for low-light readouts. Logging runs automatically at operator-set intervals from 1 to 3,600 seconds (or up to 99 manual points) and exports straight to Excel from the card without extra software; data hold and min/max are also built in. An optional adapter can turn it into an IEC 61672 class-2 sound level meter, and it accepts an optional tripod/AC adapter for unattended long-term monitoring. This item ships with an add-on NIST-traceable calibration certificate.
