Reed R3100SD-NIST Data Logging Conductivity/Salinity/Tds W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3100SD-NIST Data Logging Conductivity/Salinity/Tds W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02926

Availability: In Stock

Description

The REED R3100SD is a data-logging meter built for water-quality monitoring, tracking conductivity, TDS, and salinity in one handheld unit with automatic temperature compensation and a backlit LCD. Like its pH sibling, it logs to an internal SD card at operator-set intervals and exports straight to spreadsheet format for later review. The -NIST version adds a traceable calibration certificate with documented uncertainty data, useful where measurement records need to hold up to an audit.
