Reed R3525-NIST Ph Mv Meter W/Temperature & Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3525-NIST Ph Mv Meter W/Temperature & Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02928

Availability: In Stock

Description

The REED R3525 pairs a cabled pH/mV electrode with a compact meter body, suited to both handheld use and wall mounting. It auto-recognizes standard buffer solutions during a 3-point calibration, displays pH or mV alongside temperature on its dual screen, and runs off a 9V battery or optional AC adapter with a 10-minute auto shut-off. The -NIST edition adds a NIST calibration certificate on top of the standard bundle, which already includes the electrode, protective holster, pH 4/7 buffer solutions, a mounting suction cup, and battery.
