Reed R3525-KIT3 Ph Mv Meter Kit With Buffer Solutions, Adapter And Orp Electrode

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3525-KIT3 Ph Mv Meter Kit With Buffer Solutions, Adapter And Orp Electrode

Manufacturer: Reed Instruments

Model: MEA-REE-02929

Availability: In Stock

Description

This is the same REED R3525 pH/mV meter body, but packaged as the KIT3 bundle for users who also need ORP and conductivity readiness out of the box. Included are an ORP electrode, pH 4.01 and 7.00 buffer solutions, a 1413 uS conductivity standard solution for probe calibration, and a power adapter for continuous bench use. It keeps the R3525's core feature set (ATC, dual LCD, automatic buffer recognition) while giving field technicians a more complete water-testing toolkit in one case.
