Reed CP-09-NIST Current Adapter, 200a Ac W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed CP-09-NIST Current Adapter, 200a Ac W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02932

Availability: In Stock

Description

Clamp-style current adapter that plugs into any standard multimeter via banana jacks to extend its reach up to 200A AC, converting clamp current to a 1mV/A output signal. Built with a CAT II 600V safety rating and a 3 ft lead, it is a compact way to add non-invasive AC current clamping to a meter that doesn't have it built in; this listing includes NIST-traceable calibration documentation.
