Reed R5055-KIT-NIST Clamp Meter Kit, W/Nist

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5055-KIT-NIST Clamp Meter Kit, W/Nist

Manufacturer: Reed Instruments

Model: MEA-REE-02939

Availability: In Stock

Description

The REED R5055-KIT-NIST pairs the R5055 True RMS clamp meter with the R5065 18 in flexible current probe, extending current measurement from the meter's native 1000A up to 3000A AC for large bus bars and conductor bundles. It keeps the R5055's full feature set -- 6,000-count backlit display, 31-segment bargraph, min/max tracking, NCV detection, contact thermometer and an added LED flashlight -- in a CAT III 1000V/CAT IV 600V housing. The kit includes a one-year warranty and, in this NIST configuration, a traceable calibration certificate for both instruments.
