Reed R5004-NIST 3-Phase & Motor Rotation Tester W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5004-NIST 3-Phase & Motor Rotation Tester W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02944

Availability: In Stock

Description

A handheld phase-sequence and motor-rotation tester that clips onto three conductors via color-coded leads to instantly show whether phase rotation is clockwise or counter-clockwise, and which phases are energized, through onboard LED indicators. Built for 40-600V AC circuits with a CAT III 600V rating, it runs on a 9V battery and includes a soft carrying case. This unit ships with a NIST-traceable calibration certificate.
