

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5406 Capacitance Decade Box

Manufacturer: Reed Instruments

Model: MEA-REE-02957

Availability: In Stock

Description

Capacitance decade box for circuit design and prototyping, letting users dial in a target capacitance from 100pF up to 11.111uF across 5 decade ranges via front-panel slide switches in 100pF steps. Three binding posts allow isolated capacitor substitutions so a verified value can be tested in-circuit before a fixed part is soldered in. Rated to 5% substitution accuracy, compact and under a pound in weight.
