Reed R5408-NIST Resistance Decade Box W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5408-NIST Resistance Decade Box W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02959

Availability: In Stock

Description

This is the same REED R5408 resistance decade box -- 7 switch-selectable decade ranges from 1 ohm to roughly 11.1 megohms in 1-ohm steps, with slide switches and three binding posts for isolated substitutions -- but supplied with a NIST-traceable calibration certificate documenting measurement accuracy and uncertainty. It suits labs and workshops where documented traceability is required alongside the standard 1% substitution accuracy.
