Reed R5600-NIST Insulation/Resistance Meter W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5600-NIST Insulation/Resistance Meter W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02960

Availability: In Stock

Description

The REED R5600 is a combination insulation tester (megohmmeter) and multimeter that tests insulation resistance at 250V, 500V, and 1000V test voltages, reading up to roughly 2000 megohms, and also handles general resistance and voltage measurements. It has a backlit dual LCD display, an audible continuity check, a data-hold function, and a lock feature with hanging strap for hands-free field use, all housed in a rugged double-molded case rated CAT III 1000V. It ships with test leads, alligator clips, a hard carrying case, and runs on 6 AA batteries. This listing is the NIST-certified version, including a traceable calibration certificate.
