Reed C-380-Nist Refrigerant Leak Detector W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed C-380-Nist Refrigerant Leak Detector W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02971

Availability: In Stock

Description

A handheld sniffer-style detector for pinpointing refrigerant leaks in CFC, HCFC and HFC lines (including common types like R12, R22, R134a and R410A), using a flexible 15-inch gooseneck tip to reach into tight spaces around coils and fittings. It flags leaks with a tri-color LED bar plus an audible alarm, needs no field calibration, runs roughly 40 hours on its batteries, and this listing includes an accredited calibration certificate with documented measurement uncertainty for traceability.
