Reed R9910sd-Nist Data Logging Air Quality Meter W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9910sd-Nist Data Logging Air Quality Meter W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02983

Availability: In Stock

Description

This data-logging meter tracks up to three indoor air quality parameters at once, covering oxygen, carbon dioxide, carbon monoxide, temperature, and humidity through separate plug-in probes. Readings can be stored manually or set to auto-log at intervals from one second to eight hours onto a built-in SD card, then pulled off as an Excel-ready file without extra software. The kit ships with CO, CO₂, and O₂ probes, a hard carrying case, batteries, and includes a NIST-traceable calibration certificate for verified accuracy.
