Reed R5800-nist Simulator, Voltage/current W/nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5800-nist Simulator, Voltage/current W/nist Cert

Manufacturer: REED INSTRUMENTS

Model: MEA-REE-02987

Availability: In Stock

Description

This bench simulator sources precise DC voltage (0 to 11V, 1mV resolution) and DC current (0 to 20mA, 0.001mA resolution) signals for testing and calibrating process instrumentation, displayed on a large 5-digit LCD. It includes a protective boot with kickstand, an auto power-off function, and self-calibration, and comes with a NIST-traceable calibration certificate confirming its output accuracy.
