

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5820 Calibrator, Current Loop

Manufacturer: Reed Instruments

Model: MEA-REE-02988

Availability: In Stock

Description

The Reed R5820 is a handheld loop calibrator built for sourcing and measuring 4-20mA signals when servicing two-wire transmitters and loop-powered isolators. It reads out on a large 5-digit LCD, offers an internal 24V loop power supply, and supports step or ramp output modes for linearity checks, with sourcing accuracy around 0.02-0.05%. It runs on 2 AA batteries for roughly 20 hours of field use.
