Reed R5820-NIST Calibrator, Current Loop W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5820-NIST Calibrator, Current Loop W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-02989

Availability: In Stock

Description

This is the NIST-traceable version of Reed's R5820 loop calibrator, delivered with a certificate of calibration for documented accuracy in regulated or audited environments. It retains the same 4-20mA sourcing/measuring capability, 5-digit LCD, internal 24V loop supply, and selectable step/ramp outputs as the standard unit. Ideal for plants that require calibration paperwork alongside the instrument itself.
