# Reed R7000SD-NIST Data Logging Vibration Meter W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

## Product Overview

# Reed R7000SD-NIST Data Logging Vibration Meter W/Nist Cert

**Manufacturer:** Reed Instruments

**Model:** MEA-REE-02999

**Availability:** In Stock

## Description

Data logging vibration meter that captures both velocity and acceleration readings from rotating machinery such as motors, pumps, fans and bearings, helping catch developing faults before they cause downtime. It logs automatically to an SD card at user-selectable intervals and exports straight to Excel with no extra software, and offers RMS, peak-hold, data-hold and max/min readings on a backlit dual LCD. This unit ships with a NIST-traceable calibration certificate including full data and measurement uncertainties.
