Reed CM-8822F PROBE Ferrous Probe For Cm-8822

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed CM-8822F PROBE Ferrous Probe For Cm-8822

Manufacturer: Reed Instruments

Model: MEA-REE-03002

Availability: In Stock

Description

Replacement ferrous probe for the REED CM-8822 coating thickness gauge, used for measuring non-magnetic coatings such as paint or plating on magnetic metal substrates like steel. It connects via cable to the gauge body and is a direct swap for a worn or damaged original probe, letting the meter keep working without replacing the whole unit.
