Reed CM-8822NF PROBE Non-Ferrous Probe For Cm-8822

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed CM-8822NF PROBE Non-Ferrous Probe For Cm-8822

Manufacturer: Reed Instruments

Model: MEA-REE-03003

Availability: In Stock

Description

Replacement non-ferrous probe for the REED CM-8822 coating thickness gauge, designed for checking non-magnetic coating thickness -- varnish, paint, anodizing and similar finishes -- on non-magnetic substrates such as aluminum, brass and non-magnetic stainless steel. It is a cable-connected drop-in replacement for the gauge's original non-ferrous probe.
